Experienced Agile Project Manager with a strong background in leading cross-functional teams and optimizing delivery processes. Proven ability to implement Agile methodologies, enhance project workflows, and drive continuous improvement in technical initiatives.

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Agile Scrum, Kanban, SAFe, Software Project Management, Continuous Improvement / Kaizen, OKRs

DevOps & Infra: CI/CD Collaboration, Stakeholder Management, Technical Documentation, Roadmap Planning, Requirements Gathering, Scheduling Management, Resource Planning, Sprint Reviews

Databases: PostgreSQL, Snowflake, MongoDB

Tools: Jira, Confluence, Power BI, Mixpanel, Google Sheets, Smartsheet, Trello

EXPERIENCE

Technical Project Manager at FriendsWithMeasurements.com

Tech | Aug 2025 - Present

- Redesigned Postgres data model to support a catalog of 15K+ measurement profiles, enhancing data accessibility.
- Built data ingestion pipelines to standardize apparel datasets, improving data quality for product searches.
- Implemented measurement-based product search, increasing relevant results by over 30% and reducing 'no results' searches by 80%.
- Developed image and metadata pipelines using Supabase, improving catalog discoverability and analytics capabilities.

Product Manager at ALTR

Tech | Feb 2025 - Aug 2025

- Defined product requirements for data governance platform, aligning engineering with enterprise security needs.
- Transformed competitor research into a strategic roadmap, prioritizing high-demand features that supported sales initiatives.
- Developed a Snowflake Native App that automated sensitive data tagging, reducing manual efforts by hours for enterprise clients.
- Collaborated with data security teams to evaluate classifier performance and translate governance needs into product features.

Product Manager at Guy Carpenter

Tech | Nov 2023 - Dec 2024

- Drove delivery of NLP-powered workflows for contract intelligence, cutting review time from 7 days to 10 minutes, capturing \$40M in deal economics.
- Built Power BI dashboards to visualize trends and support strategic negotiations for brokerage leadership.
- Designed QA experiments that improved model precision by 15% and recall by 9%, enhancing data accuracy.
- Led scrum ceremonies and tracked OKRs for a team developing contract extraction models, ensuring timely delivery.

Technical Project Manager at Sirion

Tech | May 2022 - June 2023

- Managed budgets exceeding \$75k while leading Agile delivery of ML models, achieving over 95% of sprint goals.
- Served as the primary liaison for SaaS product customers, facilitating document extraction for financial contracts.
- Defined training data requirements and implemented NLP strategies to enhance model performance on financial data.
- Mentored junior project managers, sharing best practices in project management and Agile methodologies.

PROJECTS

Agile Transformation Initiative - Implemented Agile practices across teams

Tech | Jan 2023 - Present

- Facilitated Scrum ceremonies, improving team collaboration and project delivery timelines.
- Developed project roadmaps and risk registers, enhancing visibility and accountability across initiatives.

Data Modernization Project - Led cross-functional team for cloud migration

Tech | Mar 2022 - Dec 2022

- Coordinated with stakeholders to define project scope and deliverables, ensuring alignment with business goals.
- Optimized Kanban workflows to improve throughput and reduce bottlenecks in delivery processes.

EDUCATION

Cornell University School of Industrial and Labor Relations | Bachelor of Science, Industrial and Labor Relations
