

Brianna Singer

AI Technical Project Manager

bsinger3@gmail.com | 916-224-9144 | <https://github.com/bsinger3> | <https://www.linkedin.com/in/briannasinger/>

SUMMARY

Experienced Technical Project Manager with a strong focus on AI-driven automation and workflow optimization. Proven ability to lead cross-functional teams in delivering scalable solutions that align with strategic business objectives.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, Google Apps Script

Frameworks: Agile Scrum, Software Project Management, Continuous Improvement / Kaizen, Lean Product Development, Experimentation Frameworks

DevOps & Infra: CI/CD Collaboration, Stakeholder Management, Technical Documentation, Requirements Gathering, Change Management, Risk Management, Workflow Automation, Data Pipelines

Databases: PostgreSQL, Snowflake, MongoDB

Tools: AWS, Power BI, Mixpanel, Jira, Confluence, Google Sheets, Figma, ServiceNow

EXPERIENCE

Technical Project Manager at FriendsWithMeasurements.com

Tech | Aug 2025 - Present

- Redesigned the Postgres data model to support 15K+ measurement profiles, enhancing data accessibility for product search.
- Automated data ingestion and normalization pipelines, standardizing size formats and improving filtering accuracy.
- Developed measurement-based product search functionalities, increasing relevant search results by over 30% and reducing no-result searches by 80%.
- Implemented image and metadata pipelines using Supabase to enhance catalog discoverability and analytics capabilities.

Product Manager at ALTR

Tech | Feb 2025 - Aug 2025

- Defined product requirements for a data governance platform, aligning engineering delivery with enterprise data protection needs.
- Transformed competitor insights into a strategic roadmap, prioritizing features that directly supported the sales pipeline.
- Developed an automated Snowflake Native App for scanning and tagging sensitive data, reducing manual tagging time significantly.
- Collaborated with data security teams to evaluate classifier performance and translate governance requirements into actionable product features.

Product Manager at Guy Carpenter

Tech | Nov 2023 - Dec 2024

- Led the development of NLP-powered contract intelligence workflows, reducing review times from 7 days to 10 minutes and capturing \$40M in deal economics.
- Created Power BI dashboards to visualize trends and support multimillion-dollar negotiations, enhancing decision-making capabilities.
- Designed QA experiments that improved model precision and recall for critical edge cases, optimizing contract processing.
- Managed scrum ceremonies and tracked OKRs for a team developing contract extraction models, ensuring alignment with project goals.

Technical Project Manager at Sirion

Tech | May 2022 - Jun 2023

- Oversaw budgets exceeding \$75k while leading Agile delivery of ML models, consistently achieving over 95% of sprint goals.
- Acted as the primary liaison for clients, facilitating document extraction for financial contracts and ensuring customer satisfaction.
- Defined training data requirements and implemented NLP strategies to enhance model performance on financial data.
- Mentored junior project managers on project scoping and management skills, fostering team development.

PROJECTS

AI-Driven Automation Project - Streamlined Workflow Integration

Tech | Dates

- Developed AI-driven automation solutions to optimize enterprise workflows, improving operational efficiency across departments.
- Integrated AI tools with existing systems like JIRA to enhance data and document management, streamlining project execution.

EDUCATION

Cornell University School of Industrial and Labor Relations | Bachelor of Science, Industrial and Labor Relations
