

Brianna Singer

Implementation Project Manager

bsinger3@gmail.com | 916 224 9144 | <https://github.com/bsinger3/> | <https://linkedin.com/in/briannasinger/>

SUMMARY

Experienced Implementation Project Manager with a strong background in SaaS platforms and client onboarding. Proven track record of driving project timelines, coordinating technical implementations, and enhancing client engagement through effective communication and project ownership.

TECHNICAL SKILLS

Languages: Python, SQL

DevOps & Infra: Supabase, Postgres, Snowflake, Power BI, Mixpanel

Databases: Postgres, Snowflake

Tools: Agile, Scrum, OKRs, data pipelines, requirements definition, stakeholder management

EXPERIENCE

Implementation Project Manager, *FriendsWithMeasurements.com*, Newark, New Jersey Aug 2025 - Present

- Rebuilt FriendsWithMeasurements.com to solve a common apparel discovery problem: shoppers struggling to find clothing that fits their body measurements. Redesigned the Postgres data model to support a catalog of 15K+ measurement profiles.
- Implemented measurement-based product search using Postgres functions, vector similarity queries, and indexed text search, increasing relevant results by more than 30% and reducing no-results searches by over 80%.

Product Manager, *ALTR*, Melbourne, Florida Feb 2025 - Aug 2025

- Led product discovery for a Snowflake data classification workflow that scanned 50+ TB of customer data, identified 80+ columns of unprotected PII, and translated security needs into automated policy-recommendation requirements.
- Spearheaded ALTR's Snowflake Native App that uses Snowflake's native classifiers to scan 50+ TBs of a key customer's data, detect unprotected sensitive data, apply the right tags, and generate security policy recommendations based on exposure and usage. First customer identified 80+ columns of unprotected PII, cutting manual tagging time by 10s of hours. Product usage tracked through Mixpanel analytics.
- Synthesized enterprise access-control discovery into requirements for group-based RBAC, Okta integration, auditable database access, and a lighter architecture for 600+ databases that avoided 800-900 proxy components.
- Mapped customer classification gaps into product requirements for detecting PII, PHI, PCI, and other sensitive data types while reducing reliance on third-party DLP tools.

Product Manager, *Guy Carpenter*, New York, New York Nov 2023 - Dec 2024

- Built product narratives showing how AI contract intelligence could reduce review cycles from 7 days to about 10 minutes, surface \$40M in hidden deal economics, and make knowledge from 100k+ contracts reusable across teams.
- Built Power BI dashboards that surfaced trends in exception patterns, deal size correlations, and recurring review bottlenecks, equipping brokerage leadership with data to support multimillion dollar negotiations.
- Built Power BI dashboards that translated model outputs and contract-review exceptions into operational views for prioritization, escalation, and multimillion-dollar brokerage negotiations.

Technical Project Manager, *Sirion*, New York, New York May 2022 - June 2023

- Led daily Scrum ceremonies, sprint planning, backlog grooming, and delivery tracking for ML model implementation projects serving bank clients, consistently achieving 95%+ sprint goal completion.
- Managed project plans, budgets exceeding \$75K, delivery risks, and stakeholder updates for financial-contract AI/ML deployments, keeping client workstreams aligned across scope, timeline, and release priorities.
- Coordinated customer, product, and technical teams through implementation milestones for Sirion's SaaS contract intelligence platform, balancing client expectations with engineering capacity and model-readiness constraints.

Domestic Violence Hotline Volunteer, *Sakhi*, New York, New York Jan 2022 - Present

- Completed training in trauma response and crisis communication to support domestic violence hotline callers effectively.

Suicide Hotline Volunteer, *The Samaritans of New York*, New York, New York Feb 2021 - Sep 2021

- Practiced crisis management, mental health counseling, and emergency response, serving on the suicide hotline for regular volunteer shifts.

PROJECTS

HumaneHousing - Platform for Housing Applications

First Place Winner, Columbia University Women in Tech Hackathon | New York, New York | Oct 2022

- Co-created HumaneHousing, a prototype platform that helped recently incarcerated individuals apply for housing resources across New York State, winning first place at the Columbia University Women in Tech Hackathon and securing a \$1,500 grant.

EDUCATION

Cornell University School of Industrial and Labor Relations | Bachelor of Science, Industrial and Labor Relations
