

Brianna Singer

Professional Services Program Manager

bsinger3@gmail.com | 916 224 9144 | <https://github.com/bsinger3/> | <https://linkedin.com/in/briannasinger/>

SUMMARY

Experienced Technical Product Manager with a strong background in managing complex projects and delivering exceptional customer experiences. Able to lead cross-functional teams, implement data-driven solutions, and enhance client relationships in fast-paced environments.

TECHNICAL SKILLS

Languages: Python, SQL

DevOps & Infra: Supabase, Snowflake, Power BI, Mixpanel

Databases: Postgres, Snowflake

Tools: Agile, Scrum, OKRs, NLP, data pipelines, stakeholder management

EXPERIENCE

Technical Program Manager, *FriendsWithMeasurements.com*, Newark, New Jersey Aug 2025 - Present

- Rebuilt FriendsWithMeasurements.com to solve a common apparel discovery problem: shoppers struggling to find clothing that fits their body measurements. Redesigned the Postgres data model to support a catalog of 15K+ measurement profiles.
- Scaled catalog and review data coverage across high-volume sources, including a Hollister pipeline that processed 1,966 products and 160K+ customer reviews into structured fit and measurement data for downstream analytics.

Product Manager, *ALTR*, Melbourne, Florida Feb 2025 - Aug 2025

- Spearheaded ALTR's Snowflake Native App that uses Snowflake's native classifiers to scan 50+ TBs of a key customer's data, detect unprotected sensitive data, apply the right tags, and generate security policy recommendations based on exposure and usage. First customer identified 80+ columns of unprotected PII, cutting manual tagging time by 10s of hours. Product usage tracked through Mixpanel analytics.
- Led product discovery for a Snowflake data classification workflow that scanned 50+ TB of customer data, identified 80+ columns of unprotected PII, and translated security needs into automated policy-recommendation requirements.
- Synthesized enterprise access-control discovery into requirements for group-based RBAC, Okta integration, auditable database access, and a lighter architecture for 600+ databases that avoided 800-900 proxy components.
- Prioritized dashboard requirements that connected sensitive-data discovery, classification results, masking policy context, and remediation workflows into a single customer-facing governance view.

Product Manager, *Guy Carpenter*, New York, New York Nov 2023 - Dec 2024

- Drove delivery of NLP-powered contract intelligence workflows across more than 100k property reinsurance contracts, reducing average contract review time from 7 days to approximately 10 minutes and capturing more than \$40M in previously unstructured deal economics.
- Built product narratives showing how AI contract intelligence could reduce review cycles from 7 days to about 10 minutes, surface \$40M in hidden deal economics, and make knowledge from 100k+ contracts reusable across teams.
- Built analytics requirements for dashboards that exposed exception patterns, contract review bottlenecks, deal-size correlations, and recurring negotiation risks for multimillion-dollar brokerage negotiations.

Technical Project Manager, *Sirion*, New York, New York May 2022 - June 2023

- Managed project plans, budgets exceeding \$75K, delivery risks, and stakeholder updates for financial-contract AI/ML deployments, keeping client workstreams aligned across scope, timeline, and release priorities.
- Managed budgets exceeding \$75k, led daily scrum and Agile delivery of ML models, consistently hitting +95% of sprint goals for bank clients.
- Led daily Scrum ceremonies, sprint planning, backlog grooming, and delivery tracking for ML model implementation projects serving bank clients, consistently achieving 95%+ sprint goal completion.

Domestic Violence Hotline Volunteer, *Sakhi*, New York, New York Jan 2022 - Present

- Provide crisis support for the domestic violence hotline, coordinated with New York City's Homeless Shelter network for emergency placements.

Suicide Hotline Volunteer, *The Samaritans of New York*, New York, New York Feb 2021 - Sep 2021

- Practiced crisis management, mental health counseling, and emergency response, serving on the suicide hotline for regular volunteer shifts.

PROJECTS

HumaneHousing - Platform for Housing Applications

First Place Winner, Columbia University Women in Tech Hackathon | New York, New York | Oct 2022

- Co-created HumaneHousing, a prototype platform that helped recently incarcerated individuals apply for housing resources across New York State, winning first place at the Columbia University Women in Tech Hackathon and securing a \$1,500 grant.

EDUCATION

Cornell University School of Industrial and Labor Relations | Bachelor of Science, Industrial and Labor Relations
